# KITE Client – Whitelist Settings

During testing, KITE Client passes information to the servers at the Center for Educational Testing and Evaluation (CETE). If your location uses a firewall, be sure to whitelist the following domain or IP addresses so that KITE Client will function correctly.

## Whitelist

Domain	OR	IP Addresses
*.cete.us		103.21.244.0/22 103.22.200.0/22 103.31.4.0/22 104.16.0.0/12 108.162.192.0/18 129.237.18.64/27 141.101.64.0/18 162.158.0.0/15 173.245.48.0/20 188.114.96.0/20 190.93.240.0/20 197.234.240.0/22 198.41.128.0/17 199.27.128.0/21 66.206.205.32/27

## Files that Need Access Through the Firewall

In addition, consider allowing the following files access through the firewall:

kiteclientae.exe

kiteclient.exe

tde.exe
